Management's Discussion and Analysis

June 30, 2017

Introduction 1

1

The following Management's Discussion and Analysis (MD&A) provides an overview of the financial position and activities of Murray State University (University) for the year ended June 30, 2017. This discussion has been prepared by management and should be read in conjunction with the

Financial Highlights 1

1

1

- ^{3/4} The University's financial net position dramatically changed in 2015 with the implementation of GASB Statement No. 68 ~~Accounting and Financial Reporting for Pensions~~—an amendment of GASB Statement No. 27. The effects of implementing GASB Statement No. 68 are summarized in the following table. It is important to note that the implementation of this standard has no effect on past or current cash or cash equivalents.

	2017	2016	2015
Beginning net position, no pension adjustment	\$ 300,800,699	\$ 257,415,254	\$ 240,612,199
Change in net position, no pension adjustment	31,451,310	43,385,445	16,803,055
Ending net position before pension adjustment	332,252,009	300,800,699	257,415,254
Pension beginning adjustment	(244,041,269)	(233,568,557)	(230,675,047)
Pension revenue/expense adjustment	(21,989,968)

Deferred Outflows of Resources

A new section of the Statement of Net Position added in 2014 in compliance with GASB Statement No. 65 ~~Items Previously Reported as Assets and Liabilities~~ This statement required that the deferred bond refunding loss, previously reported as

MURRAY STATE UNIVERSITY
A Component Unit of the Commonwealth of Kentucky

Management's Discussion and Analysis, continued

June 30, 2017

- x \$5.5 million Increase in accounts payable. This increase is attributed to the net \$6.3 million increase in plant accounts payable related to the new Breathitt Veterinary Center, Franklin Hall and Engineering and Physics building. Offset by a (\$0.8 million) decrease in unrestricted accounts payable attributable to timing differences in routine payables.

(\$5.3) million Decrease in long term debt. This decrease is primarily the result of the 2016 principal payments on bonds and masterleases.

Deferred Inflows of Resources

A new section of the Statement of Net Position added in 2014 in compliance with GASB Statement No. 65 – Items Previously Reported as Assets and Liabilities. This statement requires that certain items are no longer to be reported as a liability. This consisted of \$7 million in fiscal year 2017, \$6.2 million in 2016, and \$10 million in 2015 for deferred inflows of resources related to pensions as specified in GASB Statement No. 68. Also in fiscal year 2015 was \$2 million from State capital 2014 2016 appropriations related to the new Breathitt Veterinary Center (BVC) project which was received and recorded as revenue in fiscal year 2016.

Net Position

Net position, which represent total equity, of the University were divided into three major categories, defined as follows:

MURRAY STATE UNIVERSITY 1

Statements of Revenues, Expenses and Changes in Net Position 1

The Statements of Revenues, Expenses and Changes in Net Position, which are generally referred to as the activities statement or income statement, present the revenues earned and expenses incurred and income or loss from operations for the current and prior fiscal years. Activities are reported as either operating or non-operating. Changes in total net position as presented on the Statements of Net Position are based on the activity presented in the Statements of Revenues, Expenses and Changes in Net Position.

The financial statements are prepared on the accrual basis of accounting, whereby revenues and assets are recognized when the service is 1 Position.

Management's Discussion and Analysis, Continued

June 30, 2017

The comparative sources of total operating revenues and nonoperating state appropriation revenues are reflected in the following chart:

Operating Revenues and State Appropriations
(In Thousands)

Expenses

Total operating expenses for fiscal year 2017 were \$201.91

MURRAY STATE UNIVERSITY
A Component Unit of the Commonwealth of Kentucky

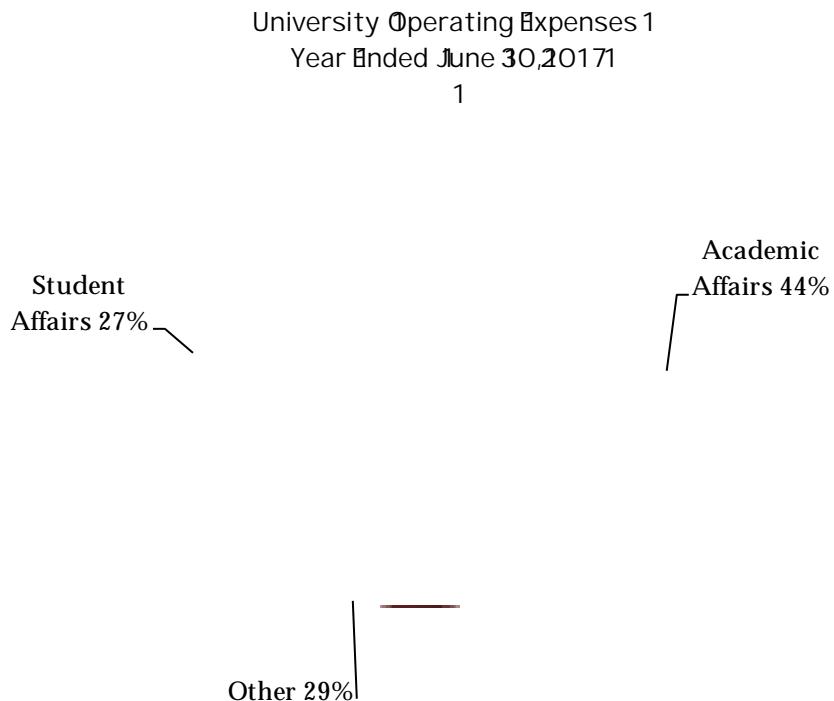

Management's Discussion and Analysis, continued

June 30, 2017

\$3.2 million ~~■~~ Increase in operation and maintenance of plant expenses, before pension adjustments, as the result of an increase in attention to deferred maintenance projects. Also, 2016 was low because of a one time (\$1.3 million) decrease related to an adjustment for facilities inventory.

(\$2.9 million) ~~■~~ Decrease in overall operation spending, not including operations and maintenance mentioned above. The primary factor is the continued focus to more closely monitor spending because of the general state appropriation cuts for 2017.

Operating expenses by type are reflected in the following chart:

The net loss from operations for the year ended June 30, 2017, was \$83.2 million. Nonoperating revenues, net of expenses, of \$70.7 million, insurance reimbursements of \$156,000, capital gifts of \$67,000 and endowment gifts of \$590,000 resulted in an increase in net position of \$9.5 million for the year ended June 30, 2017. This increase in net position is primarily the result of state capital appropriations of \$21.1 million related to the new Breathitt Veterinary Center and the Engineering and Physics building projects.

Capital Assets and Debt Administration 1 1 1

The University had a \$5.2 million increase in capital assets, before accumulated depreciation, during the fiscal year ended June 30, 2017. This change is primarily due to a \$25 million increase in construction in progress offset by an (\$18.9 million) adjustment to library inventory. This adjustment was the result of a

MURRAY STATE UNIVERSITY
A Component Unit of the Commonwealth of Kentucky

Management's Discussion and Analysis, continued

June 30, 2017

Infrastructure Assets 1

Infrastructure assets are defined by GASB No. 34 as long lived assets that are normally stationary in nature and normally can be preserved for a significantly greater number of years than most capital assets. These types of assets will typically be permanent nonbuilding additions that service the entire campus. The University has adopted the modified approach of accounting for its infrastructure assets. This approach requires that an asset management system be established and maintained. Such a system would assess and disclose that all eligible infrastructure assets are being preserved approximately at (or above) a condition level established. To date, the University has not identified any assets that should be classified as infrastructure.

Additional information for Capital Assets and Debt can be found in Notes 7 and 11, respectively, to the financial statements.

DRAFT FOR

MURRAY STATE UNIVERSITY
A Component Unit of the Commonwealth of Kentucky

Notes to the Financial Statements

1

1. 1 Summary of 1

MURRAY STATE UNIVERSITY 1
A Component Unit of the Commonwealth of Kentucky 1
1
Notes to the Financial Statements, continued 1
1

Investments 1

The University accounts for its investments at fair value. Fair value is determined using quoted market prices. Changes in unrealized gain (loss) on the carrying value of investments are reported as a component of investment income in the statements of revenues, expenses, and changes in net position. 1

1

Assets held by the Foundation represent those gifts and donations made directly to the University, which are held by the Foundation for investment purposes. The net appreciation and income of donor restricted endowments are available to the University for expenditure to the extent permitted by Kentucky law and the spending policy of the Foundation. The recognition of gifts, donations and endowment pledges are accounted for by the University in accordance with GASB Statement No. 83, Accounting and Financial Reporting for Non-exchange Transactions (GASB No. 83) and are recognized when all applicable eligibility requirements are met. 1 1 1

1

Accounts Receivable 1

Accounts receivable consists of tuition and fee charges, other operational activities and auxiliary enterprise services and amounts due from component units. Accounts receivable from component units 1.3832 0 TD 0 Tc <023

MURRAY STATE UNIVERSITY
A Component Unit of the Commonwealth of Kentucky

Notes to the Financial Statements, continued

The University capitalizes interest costs as a component of construction in progress, based on interest costs of borrowing specifically for the project, net of interest earned on investments acquired with the proceeds of borrowing. Total interest capitalized was \$1,051,729 and \$1,084,807 for the years ended June 30, 2017 and 2016, respectively.

The University owns historical collections housed throughout the campus that it does not capitalize, including artifacts in Wrather Museum. These collections adhere to the University's policy to (a) maintain them for public exhibition, education or research; (b) protect, keep unencumbered, care for and preserve them and (c) require proceeds from their sale to be used to 0#equire.v.0008Tc(ended)Tj/TT11Tf2.76050TD0Tc0231T

MURRAY STATE UNIVERSITY
A Component Unit of the Commonwealth of Kentucky

Notes to the Financial Statements, continued

In addition to liabilities, financial statements may report a separate section for deferred inflows of resources. Deferred inflows of resources consist of the acquisition of net position that is applicable to a future reporting period and so will not be recognized as inflow of resources until then. Deferred inflows of resources include state reimbursements as well as certain changes in pension obligations that are amortized over future periods.

Net Position

The University's net position is classified as follows:

Net investment in capital assets: This represents the University's total investment in capital assets, net of outstanding debt obligations related to those capital assets. To the extent debt has been incurred but not yet expended for capital assets, such amounts are not included as a component of net investment in capital assets.

Restricted net position nonexpendable: Nonexpendable restricted net position consists of endowment and similar type funds in which donors or other outside sources have stipulated, as a condition of the gift instrument, that the principal is to be maintained inviolate and in perpetuity and invested for the purpose of producing present and future income, which may either be expended or added to principal.

Restricted net position expendable: Restricted expendable net position includes resources in which the University is legally or contractually obligated to spend in accordance with time or purpose restrictions imposed by external third parties.

Unrestricted net position: Unrestricted net position represents resources derived from student tuition and fees, state appropriations, sales and services of educational departments, 10 and to

contin D

MURRAY STATE UNIVERSITY
A Component Unit of the Commonwealth of Kentucky

Notes to the Financial Statements, continued

Classification of Revenues

The University has classified its revenues as either operating or nonoperating revenues according to the following criteria:

Operating revenues: Operating revenues include activities that have the characteristics of exchange transactions, such as (1) student tuition and fees, net of discounts and allowances, (2) federal, state and local grants and contracts (excluding Pell and similarly funded federal and state grants for student financial aid) and (3) sales and services of auxiliary enterprises, net of discounts and allowances.

Nonoperating revenues: Nonoperating revenues include activities that have the characteristics of nonexchange transactions. In a nonexchange transaction, the University receives value without directly giving equal value back, such as a gift or grant for which there is no return requirement. Additionally, certain significant revenues relied upon for operations, such as state appropriations, Pell and similarly funding federal and state grants for student financial aid, investment income and endowment income, are recorded as nonoperating revenues, in accordance with GASB No. 35, Basic Financial Statement and Management Discussion and Analysis for Public Colleges and Universities, an Amendment of GASB Statement 34.

Tuition Discounts and Allowances

Student tuition and fee revenues, and certain other revenues from students, are reported net of discounts and allowances. Discounts and allowances are the difference between the stated charge for goods and services provided by the University and the amount that is payable by students. Certain grants, including federal, state or nongovernmental programs, are recorded as either operating or nonoperating revenues, while Pell grants are recorded as nonoperating revenues in the University's financial statements. To the extent that revenues from such programs are used to satisfy tuition and fees and other student charges, the University has recorded a discount and allowance. Financial aid expense represents payments made to students.

Income Taxes

The University is a component of the Commonwealth of Kentucky and is not subject to federal income tax as described in section 115 of the Internal Revenue Code. However, the University is subject to federal income tax on any unrelated business taxable income.

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Kentucky Employees' Retirement System (KERS) and Teachers' Retirement System (TRS) plans and additions to/deductions from the plans' fiduciary net position have been determined on the same basis as they are reported by KERS and TRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

MURRAY STATE UNIVERSITY
A Component Unit of the Commonwealth of Kentucky

Notes to the Financial Statements, continued

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to use estimates and assumptions. The accompanying financial statements include estimates for items such as allowances for doubtful accounts and loans receivable, self insurance liabilities and other accrued liabilities. Actual results could differ from those estimates.

~~TRS, member before 7/1/2002~~ Benefits are available with completion of 27 years of service or attainment of age 55 and five years of service. The annual retirement allowance for non university members is equal to 2.0% of final average salary multiplied by service before July 1, 1983, plus 2.5% of final average salary multiplied by service after July 1, 1983. For individuals who become members of the Retirement System on or after July 1, 2002 and have less than 10 years of service at retirement, the retirement allowance is 2.0% of final average salary multiplied by service. If, however, they have 10 or more years, they receive a benefit percentage of 2.5% for all years of service up to 30 years. For members retiring on or after July 1, 2004, the retirement allowance formula is 3.0% of final average salary for each year of service credit earned in excess of 30 years.

The annual retirement allowance for university members is equal to 2.0% of final average salary multiplied by all years of service. For all members, the annual allowance is reduced by 5% per year from the earlier of age 60 or the date the member would have completed 27 years of service. The minimum annual service allowance for all members is \$440 multiplied by credited service.

~~TRS, member on and after 7/1/2002~~ Benefits are available ~~0231Tj/TT21Tf43.0000TD4761Tf3.46710TD0Tc0231Tj/TT21Tf07~~

Notes to the Financial Statements, continued

Any member who ceases to be in service is entitled to receive his contributions with allowable interest. A member who has completed five years of creditable service and leaves his contributions with the System may be continued in the membership of the System after separation from service, and file application for service retirement after the attainment of age 60.

A separate Life Insurance fund has been created as of June 30, 2000 to pay benefits on behalf of deceased TRS active and retired members.

A surviving spouse of an active member with less than 10 years of service may elect to receive an annual allowance of \$2,880 except that if income from other sources exceeds \$6,600 per year the annual allowance will be \$2,160. A surviving spouse of an active member with 10 or more years of service may elect to receive an allowance which is the actuarial equivalent of the allowance the deceased member would have received upon retirement. The allowance will commence on the date 31st of July 2000.

KERS h. Per KRS 61.565 and KRS 61.752, contribution requirements of the active employees and the participating employers are established and may be amended by the KRS Board. Employees are required to contribute 8% of their annual pay. The participating employers' contractually required contribution rate for the year ended June 30, 2017, was 23.82% of annual payroll, actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the pension plan from the University were \$166,621 and \$135,295 for the years ended June 30, 2017 and 2016, respectively.

The University's overall contributions, which include pension, medical, and life insurance contributions, to KERS for the years ended June 30, 2017 and 2016 were \$6,782,307 and \$5,569,128, respectively, and were equal to the required contributions.

TRS. Per KRS 161.250, contribution requirements of the active employees and the participating employers are established and may be amended by the TRS Board. Employees are required to contribute 8.185% of their annual pay. The participating employers' contractually required contribution rate for the year ended June 30, 2017, was 15.865% of annual payroll, actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the pension plan from the University were \$166,621 and \$135,295 for the years ended June 30, 2017 and 2016, respectively.

Notes to the Financial Statements, continued

As of June 30, 2016 and 2015, mortality rates for TRS were based on the RP 2000 Combined Mortality Table for Males or Females, as appropriate, with adjustments for mortality improvements based on a projection of Scale AA to 2020 with a setback of 1 year for females.

The actuarial assumptions used in the June 30, 2016 and 2015 valuations were based on the results of actuarial experience study for the period July 1, 2008 – June 30, 2013 for KERS and July 1, 2005 – June 30, 2010 for TRS. As a result of the actuarial experience studies, the expectation of life after disability was adjusted in the July 30, 2015 actuarial valuations to more closely reflect actual experience.

For KERS the long term expected return on plan assets is reviewed as part of the regular experience studies prepared every five years for KRS. The most recent analysis, performed for the period covering fiscal years 2008 through 2013, is outlined in a report dated April 30, 2014. Several factors are considered in evaluating the long term rate of return assumption including long term historical data, estimates inherent in current market data, and a log normal distribution analysis in which best estimate ranges of expected future real rates of return (expected return, net of investment expense, and inflation) were developed by the investment consultant for each major asset class. These ranges were combined to produce the long term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation. The capital market assumptions developed by the investment consultant are intended for use over a 10 year horizon and may not be useful in setting the long term rate of return for funding pension plans which covers a longer timeframe. The assumption is intended to be a long term assumption and is not expected to change absent a significant change in the asset allocation, a change in the inflation assumption, or a fundamental change in the market that alters expected returns in future years. The target asset allocation and best estimates of arithmetic real rates of return for each major asset class, as provided by KERS's investment consultant, are summarized in the following tables:

KERS:

June 30, 2016

Asset Class	Target Allocation	Long Term Expected Real Rate of Return
Combined Equity	50%	5.30%
Intermediate Duration Fixed Income	11%	1.00%
Custom KRS Fixed Income	11%	3.33%
Real Estate

Notes to the Financial Statements, continued

For TRS the discount rates used to measure the TPL as of the Measurement Date and Prior Measurement Date were 4.20% and 4.88%, respectively. The projection of cash flows used to determine the discount rate was performed in accordance with GASB 67. It was assumed that Plan member contributions will be made at the current contribution rates and that Employer contributions will be made at statutorily required rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members until the 2040 plan year and, as a result, the Municipal Bond Index Rate was used in the determination of the SEIR. There was a change in the Municipal Bond Index Rate from the Prior Measurement Date to the Measurement Date, so as required under GASB 68, the SEIR at the Measurement Date of 4.20% was calculated using the Municipal Bond Index Rate as of the Measurement Date (3.01%). This change in the discount rate is considered a change in actuarial assumptions or other inputs under GASB 68.

Sensitivity of Murray State University's proportionate share of the net pension liability to changes in the discount rate. The following presents the University's proportionate share of the net pension liability calculated using the discount rates as of the Measurement Date and the Prior Measurement Date:

	June 30, 2016		
	1% Decrease	Discount Rate	1% Increase
University's proportionate share T KERS nh	\$ 107,389,598	\$ 95,321,852	\$ 85,179,607

15.1 Component Units 1

State University Foundation, Inc. 1

Murray State University Foundation, Inc. (Foundation) is a Kentucky nonprofit corporation formed to receive, invest and expend funds for the enhancement and improvement of the University. It is a legally separate, tax exempt component unit of the University that manages certain endowments and investments on behalf of the University. The Foundation has a Board of Trustees separate from that of the University. Although the University does not control the timing or amount of receipts from the Foundation, the majority of resources or income thereon that the Foundation holds and invests is restricted to the

Claims and Litigation

The University is a defendant in various lawsuits. It is the opinion of management and its legal counsel, based in part on the doctrine of sovereign immunity and other statutory provisions, that the ultimate outcome of litigation will not have a material effect on the future operations or financial position of the University.

Commitments

The University has outstanding commitments under construction contracts of \$7,362,457 and \$24,866,260 as of June 30, 2017 and 2016, respectively.

Government Grants

The University is currently participating in numerous grants from various departments and agencies of the federal and state governments. The expenditures of grant proceeds must be for allowable and eligible purposes. Single Audits and audits by the granting department or agency may result in requests for reimbursement of unused grant proceeds or disallowed expenditures. Upon notification of final approval by the granting department or agency, the grants are considered closed.

17.1 Fair Value Measurement1

The University categorizes its fair value measurements within the fair value hierarchy0TDt51.
