

Lowry Center

- Provide information on emergency preparedness procedures to follow in the following events-
 - Fire
 - Tornado
 - Earthquake
 - Terrorism
 - Gunshots Heard
 - Threat of Harm

- Help university employees understand their role in an emergency.
- Provide information to employees on how to respond appropriately in the event of an emergency.
- Provide resources for additional information and support.

- Fire Prevention Programs

- ESH Inspections
- State Fire Marshal's Annual Inspection
- Fire Protection Equipment Inspection, Testing and Maintenance
- Fire Safety Training

- Fire Response

- Fire Alarms
- Sprinklers
- Fire Department Response
- Building Evacuation

- Alert others in the building
 - Pull fire alarm to alert others, Fire and Police.
 - Call 911 and give details of the situation.
 - Walk through the building and tell others of the need to evacuate.

- Direct individuals to exit
 - Know location of nearest exit
 - Know location of alternate exits
- Assist physically-impaired individuals
 - Ask others to help you assist
 - Shelter them in a stairwell and alert emergency responders of their location

- Once outside, alert the Fire Department of any information you have observed.
 - Fire
 - Smoke
 - Trapped occupants
- Account for building occupants at the designated meeting area.

- If you are unable to exit the building
 - Isolate yourself from the fire and/or smoke
 - Close doors
 - Seal door with a wet cloth
 - Inform others of your location
 - Call 911 or 2222
 - Signal others from the window
 - Yell
 - Wave

- If the hallway becomes filled with smoke
 - Get low on your hands and knees and crawl.
 - Cover your face with a wet cloth.
 - Proceed to the nearest exit or place of refuge.

- Fire Alarm
- Fire Pull Station
- Fire Horn/Strobes
- Fire Extinguishers
- Lighted Exit Signs
- Emergency Generator
- Elevator Fireman's Service

- Fire alarm system will summon help when activated.
- Activation can occur by
 - Pulling a fire alarm pull station
 - Automatic activation of a smoke/heat detector
 - Sprinkler system activation

- Manual fire pull stations are located near exit doors.
- Pull in the event of fire or smoke to activate the fire alarm.
- Smoke detectors can be activated by smoke or dust in the area.

- Fire horns and strobe lights are activated when the fire alarm panel is activated.
- These devices are located in visible areas throughout the building.

- Fire extinguishers are centrally located in public areas so that the distance of travel is a maximum of 75 feet between extinguishers.

- Class A

- Will put out fires involving ordinary combustibles

- Wood
- Paper
- Cloth
- Trash
- Plastic

- Class B

- Will put out fires involving flammable liquids

- Gas
- Grease
- Oil
- Solvents

- Class C

- Suitable for use on electrical fires
 - Electric-powered tools
 - Any equipment using electricity

- The label indicates the extinguisher is suitable for use on Class A, B and C fires.

- To use an extinguisher, remember PASS-
 - Pull the pin
 - Aim at the base of the fire
 - Squeeze the handle or trigger
 - Sweep back and forth

- Exit signs indicate doors that exit the building.
- Exit signs are supplied with backup power.

- Emergency generator starts automatically when there is a power disruption. It provides power for emergency and exit lighting and for the fire alarm system.

- Elevators return to an alternate floor in the event of a smoke detector activation in the elevator lobby.
- Elevators remain locked out, available only for Fire Department use during fire alarm activation.

- Fire doors control the spread of smoke and flames to compartmentalize the fire.
-

- Watch vs. Warning

- Watch

- A tornado is possible, but not imminent
 - Proceed with normal activity, stay alert

- Warning

- A tornado has been sighted in the area
 - Take immediate action

- Listen to local radio or TV station
- Check weather websites for updates
- Listen for emergency notification messages

- Move to the interior of building. Stay away from outside walls and glass, close interior doors.
- Crouch against interior wall with your head covered for best protection.
-
- If evacuating using the stairwell presents a hazard with glass, stay on the current floor and seek shelter in the interior hallway.
- Wait for the All Clear message.

- If building has significant damage, evacuate with caution once the tornado has passed.
- Watch for:
 - Broken glass and debris
 - Downed power lines
 - Falling objects
- Assist people with injuries.
- Report damage and/or injuries to 911 or 2222.

- During an earthquake
 - Seek protection from falling debris, get under desk or in a doorway
 - Do not use elevators
 - If outside, move away from buildings, power lines and trees
 - Avoid open flames

- After an earthquake

- Provide assistance to others in need
- Call 911 or 2222 to report damage and/or injuries
- Evacuate the building, watch for hazards
- Account for building occupants at the designated meeting area

- Always be aware of your surroundings.
- If you observe something unusual, call 911 or 2222 and report:
 - What the person(s) is/are doing
 - Where it is happening
 - Physical description of those involved
 - If weapons are involved, and what type
 - Vehicle description and direction of travel when last seen

- Toxic/Irritant Gas

- Immediately evacuate the building by pulling the fire alarm.
- Account for all building occupants at the designated meeting area.
- Call 911 or 2222 and inform them of the situation with as much detail as possible.

- Infectious Agents

- Leave the material in the same location where it was found or opened. Immediately evacuate.
- Segregate individuals who were exposed.
- Call 911 or 2222 and inform them of the situation with as much detail as possible.

- If you are involved in a situation where gunshots are heard:
 - Exit the building immediately.
 - Notify anyone you may encounter to exit the building immediately.
 - Call MSU Police at 911 or 2222 and provide details of the situation.

- Call MSU Police at 911 or 2222 and tell them:
 - Your name and location
 - Number and identification of shooter(s), if known
 - Number of persons involved in situation
- Wait for emergency responders to assist you.

- In the event of immediate danger:
 - Call MSU Police at 911 or 2222.
 - Take immediate action to move others from harms way (in the immediate vicinity of event).
 - Initiate lockdown procedures.

- Warning Signs of Danger:
 - Possession of weapon
 - Suicide threats or statements
 - Detailed threats of violence
 - Rage for minor reasons
 - Destruction of property
 - Conflicts with peers, family or others

- Early Warning Signs of Threat of Harm:
 - Withdrawal
 - Feelings of isolation or rejection
 - Victim of violence or bullying
 - Uncontrolled anger
 - Talk of suicide
 - Depression
 - Marked changes in appearance
 -

- If you become concerned that an individual may pose a risk of harming him/herself or others, call MSU Police at 2222 and give them information on the individual.
